GPA: 3.8

EXPERIENCE

Outlier AI, Remote   **May 2024-present**
AI Writing Evaluator
- Search for errors in AI writing and make the necessary corrections and rewrites to train the LLM better
- Write feedback on the quality of writing and determine whether or not the AI responses meet the given criteria
- Interact with various chatbots to determine if they will follow their prewritten rules of communication

LOGRAR Project (formerly TeenXperience), Remote   **June 2024-July 2024**
Web Development Intern
- Wrote markup for various pages of the planned website and utilized GitHub to share documents with the team
- Designed creative wireframes and layouts following user experience principles
- Collaborated with leadership and other interns to brainstorm and research project ideas

Winn-Dixie, West Melbourne, FL   **September 2021-May 2022**
Cashier
- Assisted customers in a courteous and friendly manner during checkout and throughout the store
- Helped to train new cashiers and assisted them with the various questions and problems that they had
- Designed posters to inform customers and fellow employees about new sales and events

ACADEMIC PROJECTS

- Mobile Development: created a mockup of a mobile exercise app showcasing various screens and states
- Server-Side Scripting: constructed a car inventory management page with sorting and price totaling functionality
- Client-Side Scripting: developed a multi-page website that outputs collected user info and quiz score to a second page and displays a picture based on their score

ACTIVITIES

- Design and Code Club   **January 2024-present**
- Indian River Lagoon Club   **October 2018-April 2019**
- Anime Club   **August 2016-October 2018**
